

DISL Automatic – The Ambush

First of all I wanna say muthafuck the system!
And free all of the drug offenders that are stuck in prison
The drug war is nothing but a corporate war for profit
And every drug arrest is money in somebody's pocket
The rich get richer while the rest are left to die
People never question why, they just shut up and comply
With the orders that they're given
Their thoughts are in a prison
Cause they never go beyond the mental borders that they live in
Fear got 'em shackled in imaginary chains
Freedom's an illusion contrary to what they claim
Slavery's a catalyst for monetary gain
So the people that we choose to lead will never bring us change
Cause to be the president up in the white house
You gotta serve the ones who follow Adam Weishaupt
And if you ever try to change and take the right route
They gon' let that thing bang and blow your lights out
That's what happened to Abe Lincoln and Kennedy
Any president that's for the people is the enemy
And any president that ever led a campaign to end
The Fed just ended up dead now that's a damn shame
This ain't a damn game this is a war fam
For more power, more money and more land
More oil, more silver and more gold
First they take away your freedom then they taking your soul
Are you hearing me clearly?
Do you still think this shit is a conspiracy theory?
Do some research, this is public information
Since the very start there's been corruption in our nation
Our government's a puppet that is run by corporations
They don't give a fuck about the suffering population
They devalue our labor and our money with inflation
Then have the nerve to say it's economic stimulation
Every move they make has ulterior motives
Hey're so arrogant that they don't even care if we notice
They expose their plans with declassified documents

They're confident that we're too pacified to put a stop to it
Shit, and maybe they're right
But not me, DISL Automatic's made for the fight
It's an ambush guerrilla style
Military general
Kill a child in a foreign land and you're a hero now
But kill a child here and catch a life sentence
That double standard really sends the right message
Soldiers are remorseless when burying corpses
They're simply taking orders from superior bosses
Americans they claim are part of terrorist forces
Get locked up and tortured with no Habeas Corpus
You'll catch a beating 'til you're black and you're blue
You'll be crying and bleeding while they're laughing at you
These are facts that I'm spitting what I'm rapping is true
You think it's not possible until it happens to you
If they strip one citizen of one single right
Then none of us are free and that's the reason we should fight!
Now's the time for the people to rise
And expose the truth behind the secrets and lies
Put an end to the elitists who treat us as slaves
They lead us astray
Deceiving us with treasonous ways
Based on history the logical solution
To the problems that we're facing is to start a Revolution!
One life, one take, no this ain't a rough cut
The dream is over now it's time to WAKE THE FUCK UP!!!

How to Format Lyrics:

Type out all lyrics, even repeating song parts like the chorus

Lyrics should be broken down into individual lines

Use section headers above different song parts like [Verse], [Chorus], etc.

Use italics (<i>lyric</i>) and bold (lyric) to distinguish between different vocalists in the same song part

If you don't understand a lyric, use [?]
